Subject: Uber

I was very disappointed to hear you have banned uber in SC as it provides a great service at reasonable prices. My girlfriend and I use it all the time in charleston. I know a lot of her friends use UBER instead of drinking and driving. I think it's a shame you have taken this unnecessary step. SC highways will become more like dieways and the choice was yours!

Disappointed in my State,

John Kelly

Subject: We want UBER!

To Whom It May Concern:

I am a student at Furman University in Greenville. As a student, I often use Uber with my friends to go downtowns on weekends. If it weren't for Uber, I know of many students who would chose to drive drunk back because cabs are much more expensive and Furman has a horrible and unreliable transportation service to off campus locations. My experiences with Uber have been nothing but phenomenal and I have never felt unsafe. In my opinion, Uber is not as scary as a cab, because you can always track your ubers location before you decide to enter the vehicle. Taking away this great service would be such a disappointment to many people. Please think about all the disadvantages of taking away Uber before making any decisions.

Sincerely,
Hannah beach

I live in clover SC which has no public transportation and not serviced by taxi companies. UBER was our best shot at providing this needed service to community.

Please reconsider your recent order and allow UBER to operate in SC.

Please consider the benefit this service provides these rural areas and not just impact to areas already serviced by public transit and cab companies.

Transportation for the elderly, keeping our roads safe by providing those that have consumed alcohol... Just a couple reasons this service is needed.

Subject: Stop actions against Uber

PSC,

I oppose the orders to direct Uber to cease operations in South Carolina. This is entrenched interests (taxis) putting down the competition on the pretext of concerns about safety. In addition to insurance Uber carries, and the background checks drivers must undergo, with Uber everything about who is operating a vehicle for a particular rideshare is known--who they are and where they are at all times. Can't say that about cabs!

I don't want your "protection" from Uber. Please stop. SC Needs Uber.

Sincerely,

Scott Olmsted
Mount Pleasant, South Carolina
